

8. Chi S.C. and Chang L. (2007) Screening and characterization of Bacteria with anti-betanodavirus activity from grouper (Epinephelus sp.) intestine. The 13th International Conference of the EAFP (European Association of Fish Pathology), Disease of Fish and Shellfish, Grado, Italy, P117. (Sep. 17-22)

10. Kai Y.H. and Chi S.C (2007) The induction of the specific immune response in the groupers using NNV-inactivated vaccine. The 13th International Conference of the EAFP (European Association of Fish Pathology), Disease of Fish and Shellfish, Grado, Italy, P57. (Sep. 17-22)

14. Development of one-step diagnosis kit for fish nodavirus. 4th International Veterinary Vaccines and Diagnostics Conference. 2006/6/25-29, Oslo, Norway

15. Cloning and analysis of expression of a Barramundi (Lates calcarifer) Mx gene. 4th International Veterinary Vaccines and Diagnostics Conference. 2006/6/25-29, Oslo, Norway

16. A cell line derived from the brain tissue of barramundi (Lates calcarifer) persistently infected with betanodavirus. 6th International Symposium on Viruses of Lower Vertebrates. 2004/9/19-22, Hakodate, Hokkaido, Japan

17. The mechanism for betanodavirus-persistent infection in barramundi brain (BB) cell line. 6th International Symposium on Viruses of Lower Vertebrates. 2004/9/19-22, Hakodate, Hokkaido, Japan

18. Interference of the life cycle of fish nodavirus with fish retrovirus. 4th International Symposium on Aquatic Animal Health. 2002/9/1-5, New Orleans,
Louisiana, USA

19. Investigation of host range of fish nodavirus in Taiwan. 10th International Conference of the EAFP. Disease of Fish and Shellfish. 2001/9/9-14, Dublin, Ireland

21. Immunoresponse to killed vaccine and recombinant subunit vaccine of nervous necrosis virus in grouper. 10th International Conference of the EAFP. Disease of Fish and Shellfish. 2001/9/9-14, Dublin, Ireland

22. The in vivo study of persistent infection (PI) of grouper nervous necrosis virus (GNNV). Taiwan-Norway International Symposium on Fish Virus Pathogenesis and Disease Control. 2001/8/27-31, Taipei, Taiwan

23. Disease of grouper in Chinese Taipei. Invited speaker. APEC FWG 02/2000 "Development of a regional research program on grouper virus transmission and vaccine development." 2000/2/18-20, Bangkok, Thailand

24. Persistent infection of nervous necrosis virus (NNV) in Barramundi cell line. Symposiums of aqua-culture sci-tech and utilization of aquatic bio-resources in food industry. 2000/12, Jilong, Taiwan

26. Isolation and characterization of nervous necrosis virus from moribund grouper larvae (Epinephelus sp.) 9th International Conference. Disease of Fish and Shellfish. 1999/9/19-24, Rhodes, Greece

27. Temperature effect on nervous necrosis virus infection in grouper cell line and in grouper larvae. 4th International Symposium on Viruses of Lower Vertebrate. 1998/5/12-15, Weymouth, England, UK
